

Quick Guide: Exporting and Uploading Treatment Data to Vasc-Alert

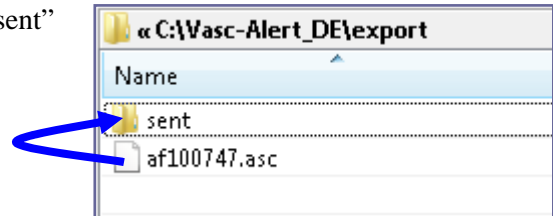

- 1) **Create** the export file in the Vasc-Alert Data Entry program.

- 2) Log into the Vasc-Alert web interface, and **upload** the file. The file will be in the C:\Vasc-Alert_DE\export directory.

- 3) In Windows explorer, **move** the export file to the "sent" subdirectory inside the export directory.

- 4) Return to the Vasc-Alert Data Entry program, and **archive** your current patient data.
